

Curriculum Overview – PSHE Including Citizenship, RSE(Relationship and Sex education) and Health education statutory content

The PSHE Department aims to offer a lively and stimulating course of study. Our aims and priorities for our pupils are to ensure that they understand that ***Learning is for Life*** and not just for the time they are with us. We want to nurture and develop our pupils into well rounded individuals, valuing our Catholic Faith. To ensure that they respect themselves, each other and the community and environment that they live in. We want them to believe in themselves to acknowledge their strengths, weaknesses to continue to learn from mistakes and to value everyone they meet on a daily basis, so see the good in people and to treat people with respect. We will use a combination and blend of resources from The PSHE Association, Ten:Ten, National Online Safety and other quality assured providers/charities to complement the provision. Please note delivery is through a combination of PSHE lessons, timetabled theme days, cross curricular lessons such as RE, Science and ICT and pastorally during form time and assemblies.
