

Curriculum Overview – English

The English Department aims to provide an enriching and stimulating curriculum for all students. Topics delivered range from classic literature to modern media. Our curriculum provides a basis for children of all ages and abilities to become confident communicators and readers. The KS3 curriculum maps the National Curriculum and provides opportunities to revisit and embed key knowledge, grammar, vocabulary and skills throughout the academic year. In addition to our programmes of study outlined below, students study class readers, take part in regular library events and undertake termly assessments. In Key Stage 4, all students are entered for Eduqas GCSE English and English Literature: <https://www.eduqas.co.uk/qualifications/english-language/gcse/>
